## PROFESSIONAL SUMMARY

Data Analyst with a strong foundation in SQL, Python, Power BI, Tableau, statistical analysis, and data visualization. Experienced in data cleaning, exploratory data analysis, dashboard development, and translating business data into actionable insights. Skilled in building interactive dashboards and analyzing trends, customer behavior, and key performance indicators.

## SKILLS

Python, R, SQL, Machine Learning, Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Scikit-learn, Hugging Face, LangChain, Pandas, NumPy, Matplotlib, Seaborn, Plotly, Tableau, Power BI, Jupyter Notebook, PySpark, Data Pipelines, Data Validation, Streamlit, Git, Database Management Systems (DBMS), Probability, Statistics

## EXPERIENCE

**Engagesphere Technology Private Limited (Euron)** 🌐 **01/2026 - 04/2026**

*AI Engineer Intern*

- Worked on AI-based applications involving generative AI and data-driven systems
- Developed and integrated intelligent features using large language models (LLMs) via APIs.
- Implemented prompt engineering techniques to generate context-aware responses.
- Collaborated with development teams to design scalable and modular AI solutions

**CODELAB Systems** 🌐

**12/2023 - 12/2023**

*Data Analytics Intern*

- Worked with databases to store, access, manipulate, and analyze data using Power BI tools.
- Assisted in data visualization, dashboard creation, and generating insights for business decisions.
- Collaborated with cross-functional teams in an Agile development environment to enhance data processing workflows.

## PROJECTS

**E-Commerce Sales Analysis Dashboard** **09/2026 - 09/2026**

- Developed an interactive e-commerce sales dashboard using Power BI, DAX, and Power Query to analyze sales performance and customer behavior.
- Built key performance indicators (KPIs) and interactive visualizations for monthly sales trends, top-selling products, and customer demographics.

**WellNest AI-Mental Health Companion System** 🌐 **01/2026 - 02/2026**

- Architected a full-stack mental health platform integrating FastAPI, React, and MongoDB with NVIDIA AI Endpoints (GPT-OSS-120B) for real-time mood tracking and empathetic LLM response generation.
- Integrated NVIDIA AI Endpoints (GPT-OSS-120B) to generate context-aware, empathetic responses and designed RESTful APIs using FastAPI.

**Medical RAG Chatbot** 🌐 **09/2025 - 10/2025**

- Engineered an end-to-end medical QA chatbot leveraging LangChain, Pinecone Serverless vector storage, and Hugging Face Embeddings for accurate context-aware information retrieval.
- Deployed an interactive UI using Streamlit while incorporating LLM Ops best practices for real-time monitoring and scalable vector indexing.

**Student Survey Analysis: India vs Abroad Studies** **05/2025 - 06/2025**

- Executed end-to-end primary research collecting, cleaning, and validating raw survey responses using Python (Pandas) to analyze factors driving student choices for higher education.
- Built interactive Tableau dashboards to perform exploratory data analysis and visualize trends supporting data-driven academic insights.

## ACHIEVEMENTS & CERTIFICATIONS

Python For All 🌐

Full Stack Data Science 🌐

## EDUCATION

**MSc in Data Science** **08/2024 - 04/2026**

St Aloysius Institute of Management and IT-AIMIT (DEEMED TO BE UNIVERSITY)

**Bachelor of Computer Applications(BCA)**

**08/2021 - 04/2024**

St Aloysius College (Autonomous)
